## Contact Grills

Thor offer a range of contact grills commercially built to meet the demands of busy restaurants and cafes. Machined finished cast iron cooking plates, together with stainless steel construction result in a unit that is robust, heavy duty and reliable. Bottom mounted metal heating elements and moulded cast iron cooking plates allow for faster heat up time and greater heat retention, contributing to efficient operating and cooking results. Thor Contact Grills are available in three sizes and a range of cooking configurations, and all include easy clean pull out grease trays and sturdy head lifting mechanisms. Thor Electric Contact Grills are suitable for counter top operation and are supplied with plug and power lead for easy plug in and set up. Perfect for lower volume restaurants, cafes, mobile catering and other foodservice operations; the contact grill is ideal for grilling sandwiches, paninis, tortillas, burritos, steaks, chicken, fish and any other products that you want to grill quick and easy.

## Product Features

- Stainless steel construction
- Semi embedded elements in cast iron plates provide superior heat distribution and fast recovery
- Heavy duty counter balance handle and hinge system with tension adjustment
- Temperature range: 100° C - 300° C / 220° F - 570° F
- Thermal overload protection
- Thermostat control and indicator light
- Cleaning accessories
- Digital timer
